Canebrake County Water Board - Equipment report

November 6, 2026

Equipment activity log and building maintenance -

By Daryl Holmes

DUMP TRUCK (BETTY)

Last Review 10/26/2026

Brand Ford

Model F600 Dump truck

Dump truck is now running but not great. The carburetor was not functioning properly. Josh Kline and Gerard Lawther ordered a new carburetor and will install it next trip out. Daryl will bring out a new battery.

GOLF CART

Brand EZGO

Golfcart runs ok…. Chris MacDonald uses it frequently to run local WB errands, maintenance and repairs.

FORD RANGER Water District Pick-up

Last review 10/16/2026

Replaced the battery and drove the truck for a few minutes and it stopped running. Most likely a failed fuel pump. Suggestion is to tow it to El Centro and get it repaired and sell it. Low Bluebook value is around $3K.

CAT 239D TRACK-STEER

Last review 10/24/2026

Equipment maintenance was done on October 26. Filters were cleaned and lubrication completed. Track Steer was used for 6 hours doing road maintenance for the community. Since the date of purchase we have logged 111 hours.

D4 CAT Bulldozer

Last review 9/16/2026

A home was found for the ole bulldozer. With Andria Collins help and her contacts the tractor was picked up September 16. We now have much more room for future storage. Thanks to Chris MacDonald in assisting and monitoring this much needed event.

CAT 303.5 Excavator

Last review 10/26/2026

Equipment was completely lubed and filters were cleaned and fluid levels checked on October 26. The excavator is ready for the upcoming season.

COMMUNITY BUILDING CONDITION AND USE

The community building is in great condition. Floors are sanitized and mopped. Thank you Bill Dimmock for your continued care of our building.

Sprinkler automation: System is working properly and has made such a difference with our landscape. Watering has been adjusted back to conserve and weather conditions have been good to us.

As always…… special Canebrake volunteers step up to assist our water district. Josh Kline and Gerard Lawther recently spent hours donating their time and materials to repair our dump truck. Canebrake wouldn't be what it is without volunteers like them. Thank you Josh and Gerard for your generous help.
