

Canebrake County Water Board - Equipment report

March 9th 2024 CCWD board meeting.

Equipment activity - By Daryl Holmes Jr.

DUMP TRUCK (BETTY)

Brand Ford
Model F600 Dump truck
Condition Good

Latest Review 3/8/2024

12/16/2023 Vehicle was started and driven by Daryl Holmes Jr., Washed and cleaned inside and out. Low on brake fluid. Daryl purchased brake fluid and added to master cylinder.

GOLF CART

Brand EZGO
Condition Good

Latest Review 2/3/2024 No issues

Vehicle in good working order. The vehicle was moved to Mr. Bucheit's residence to make room for storage of new TRACK STEER. On February 3rd vehicle was driven by Jerry.

BACK-UP Generator

Brand Hardy Diesel
Condition Good

Latest review 12/16/2023

Vehicle in good running order. Vehicle started and ran for 15 minutes on 9 /06/2023 by Daryl Holmes Jr. and Dean Kuns. No issues. Dean to run again week of 1/8/2024. *Fellow Canebraker Merle Vogel suggested that we hook the generator up to the community building as a safety drill. Great suggestion. We suggest a training session for our potential equipment operators.*

CAT 303-5 Mini Excavator - New to CCWD fleet

Brand CAT
Year 2020
Hours 890

Latest review 2/24/2024

On February 17th 2024 CCWD took possession of a nearly new CAT303-5 Mini Excavator. The unit was delivered by Gus Pena from Hawthorne. Dean Kuns, Tom Stucke and myself were present for a 2 hour training session. Per Ron Akey’s recommendation we added a THUMB attachment which will come in very handy for picking up large rocks. Unit comes with 18” bucket, 14” boom reach, dig depth 9’.

Maximum lift weight 3200 lbs.

FORD RANGER Water District Pick-up

Condition Good

Latest review 12/16/2023

Basic maintenance required. No issues.

USED CAT 239D TRACK-STEER - NEW equipment to CCWD

Latest review 2/24/2024

Year: 2018
Hours: 1568
Condition: Excellent

On 2/24/2024 The vehicle was cleaned and lubed with newly acquired cordless grease gun.

On February 4th we received forklift attachment.

TRACK_STEER Activity

In mid January, February 10th and 18th the vehicle was used by Daryl Holmes to clean up various Canebrake roads, Smoketree lane, Paloverde lane and a considerable amount of work on Canyon road near the Whitleys property. Dean Kuns, Jerry and myself used the vehicle to repair the Whitleys property road near the new water tank as a courtesy for Ms Whitley granting us access.

Hours currently used as of March 4th, 2024 stand at 22.

EQUIPMENT OPERATORS

Three Canebrake property owners have offered to volunteer time to our community to operate CCWD equipment. Bill Dimmock, Chris MacDonald, Tom Stucke and most recently Steve Fillmore have all presented letters to CCWD board as their wishes to volunteer to be tractor operators.

TRAINING

On Saturday, February 3rd our Canebrake operators attended a very informative training meeting from Mr. Brad Hoyt, a heavy equipment supervisor and professional operator. Brad drove out from San Diego and donated his time for this very valuable and informative meeting that primarily consisted of safety and maintenance with our new equipment.

PRE-OPT and POST OPERATION Check lists in place and posted.

COMMUNITY BUILDING CONDITION AND USE

Building in working order.

Respectfully submitted,

Daryl Holmes Jr.
