Subject	comments for May 9 meeting
Message	<p>I will not be attending the meeting on May 9. Regarding the hiring of a D1 certified operator, I am willing to obtain this certification. I am a full time resident of Canebrake and I have already taken many relevant classes. I would not charge the district for doing the sampling and overseeing repairs if that is also required. Probably not for mileage either. It is unlikely that I could obtain the certification by June 1 but midsummer is possible.</p>
