From: Jerry Bucheit/President/Canebrake County Water District (CCWD)

Re: Repair of CCWD Solar Array

---

On behalf of the Canebrake County Water District, we thank you for your willingness to repair the solar array at 215 Canebrake Rd. You spent your time and fuel to trouble shoot the system. Found a vender and worked with them to warranty the necessary parts.

When you found the time, you came to our community and spent half a day repairing the system and bringing it back online. And most importantly at no cost to the district.

Mr. Ross, the CCWD is extremely grateful for your commitment and services repairing our system. Be assured we will reach out to you again should the need arise.
