

Canebrake County Water Board - Equipment report

September 14th. CCWD board meeting.

Equipment activity - By Daryl Holmes Jr.

DUMP TRUCK (BETTY)

Brand Ford
Model F600 Dump truck
Condition Good

7/20/2024

Dump truck was started and ran for a few minutes. Daryl pulled it out and washed it.

GOLF CART

Brand EZGO
Condition Good

7/12/2024 No issues

Vehicle in good working order. The vehicle was moved to Mr. Bucheit's residence to make room for storage of new TRACK STEER. On February 3rd vehicle was driven by Jerry.

BACK-UP Generator

Brand Hardy Diesel
Condition Good

6/6/2024 No issues

Daryl donated a quality maintenance charger for the unit. Unit needs to be started and ran. I would like to reach out to our Canebraker electrician, Travis Hinchcliff to assist us in powering up the community building, training and an SOP.

CAT 303-5 Mini Excavator - New to CCWD fleet

Brand CAT
Year 2020
Hours 890

Latest review 8/30/2024

Excavator was used for 4 hours July 6. A significant leak in the main Price line was discovered. Excavator based on compact size easily accessed leak area and dug out Price line and and a 12' ditch. Excavator was used by Chris MacDonald for work on Adams line and and a repair at Banks. Early August Daryl and Chris used the Excavator to dig out line for repair on Smoketree West.

On August 3rd, Daryl washed and lubed the equipment, inspected filters. Ron Akey assisted in refueling. So far the excavator has performed excellent since it was acquired.

FORD RANGER Water District Pick-up

Condition Good

Basic maintenance required. No issues. Need to repair shift column. Jerry B. went through truck, cleaned out trash and unneeded materials and equipment and organized.

USED CAT 239D TRACK-STEER - NEW equipment to CCWD

Latest review 8/16/2024

Year: 2018
Hours: 1568
Condition: Excellent

On 9/3/2024 The vehicle was washed, cleaned and lubed by Daryl Holmes. Ron Akey assisted with refueling. Hawthorne CAT informed us of a recall and a software update needed and requested us to return equipment to Rancho Bernardo. I explained that cannot happen. Hawthorne sent a technician to do the update with the assistance of Chris MacDonald

TRACK_STEER Activity

During the months of July and August the track steer was used for a total of 8 hours with various activities such as road repairs after August rains. Work on Smoketree west on Water lines

Hours currently used as of August 16, 2024 stand at 34.

EQUIPMENT OPERATORS

Our volunteer operator Chris MacDonald has become proficient in operating the equipment. Daryl will involve Steve Fillmore in future projects and more operating time on both tractors.

TRAINING

PRE-OPT and POST OPERATION Check lists in place and posted.

COMMUNITY BUILDING CONDITION AND USE

Building in working order.

Respectfully submitted,

Daryl Holmes Jr.
