Congratulations to the CCWD on this latest acquisition! Amanda and I are enthused that the Board is looking towards the future of the community...and the water to support it. I personally have enjoyed contributing to this aspect of being a Canebraker this last year - whether that be helping to stand up the new poly tank, digging out trenches here and there, or jumping in with Dean (and Chris, and Mr. Mooney, etc...) when a water line needed to be fixed during the summer.

To that end, I would like to volunteer to be trained to operate and maintain this new equipment in order to keep contributing to that effort; my preference would be to focus on learning the mini-excavator, but would be happy to cross train on both. I also have experience driving Class B vehicles so could help with the dump truck as needed/if needed. Although I do have some experience with operating and maintaining machinery like this, it has been awhile. However, I have spent a considerable amount of time around many types of heavy equipment during fire suppression operations, and have some understanding of what limitations and safety considerations need to be made during their operation. Schedule-wise, Amanda and I are out most weekends all year long, and I have a great deal of flexibility in my weekly schedule to help address emergencies as they arise. As such, I feel like I could be an asset and part of maintaining the water system long into the future.

If there is no need at this time, of course I'm happy to grab a shovel and lend a hand any time that I can!
Thanks, Stephen Fillmore

Dear Canebrake Community,

As you can see from the picture above, a practically new CAT 303-5 Excavator was added to the CCWD equipment fleet on Friday, February 16, 2024. Our community is now aligned with the most dependable and versatile equipment for our needs. "The safety features and maneuverability of both pieces of equipment are incredible," said Daryl Holmes, Jr., our Board Member that spearheaded the equipment transition.

A resounding THANK YOU to those who participated financially. First and foremost, thank you to the Canebrake Improvement Association (CIA) members. The CIA and family donations listed below significantly reduced the expense impact on our limited CCWD funds.

- **RON AND BONNIE AKEY**
- **PETER AND MARY BANKS**
- **DAVID CODY**
- **ANDREA COLLINS/ NICK GRAY**
- **FRANK COLVER**
- **BILL AND ANN FAIR**
- **KEITH FOULDS**
- **THE HOLMES FAMILY**
- **MARIANNE MILLER**
- **KATHY STEUERMANN**
- **JOY AND TOM STUCKE**

We will be presenting a plaque of appreciation to the CIA President to hang in McKenney Hall at a Water Tank Inaugural Party we will host at the end of the season after the CIA meeting on April 7th,

2024. We hope you will all attend. We look forward continued synergy with the CIA to improve our precious water system.

We all thank you,

Your CCWD Board of Directors

Jerry Bucheit

Steve,

Thank you for that extraordinary email. We will include your letter for discussion at the next board meeting.

But, to let you know now; YES, we need you! Thank you for volunteering. We look forward to more work parties in the future.

Best,

Ellyn

Fellow Canebraker Steve.... this is awesome! I concur with Elyn.... We will share with the board members and get you approved. We would welcome your volunteer services as a possible operator. I will be out this Friday and will be servicing and lubing the equipment. Come by anytime and I can go over both units. Saturday morning at 9 am would be great if you want a specific time.

Very best regards to you and Amanda!

Daryl Holmes Jr.

Love the enthusiasm!
 Thank you Amanda and Steve

This season we also want to do some valve upgrades and stabilize the priceline.
 We'll keep you updated when those dates happen.

best to you both,
 gunnar
