## Canebrake County Water Board - Equipment report

---

Equipment activity - By Daryl Holmes Jr.

### **DUMP TRUCK**

Brand Ford

Model F600 Dump truck

***5/8/2024***

Josh Kiein and Daryl Holmes successfully bled brakes and they are now in working order. Daryl washed the dump truck and took it on a drive around Canebrake. Ron Akey assisted and engaged the dump bed. Everything is in working order.

### **GOLF CART**

Brand EZGO

Condition Good

***Latest Review 5/3/2024 No issues***

Vehicle in good working order. Stored at Mr. Bucheits residence.

### **BACK-UP Generator**

Brand Hardy Diesel

***Latest review 3/8/2024***

Needs a battery maintainer unit attached. Daryl Holmes will donate one at meeting. Jerry and Daryl to run generator.

Wednesday, June 5, 2024

**FORD RANGER Water District Pick-up**

Condition Good

*Latest review 5/21/2024*

Basic maintenance required. No issues.

**USED CAT 239D TRACK-STEER - Equipment activity**

*3 hours used since May 11, 2024*

Date purchased: November 15, 2023

5/17/2024 Daryl Holmes and Ron Akey used the track steer for various projects including removing rocks from Smoketree Lane and filling in vault construction work covering 3" water line. Ron and Daryl washed the equipment, completely greased/lubed. Track Steer is in excellent working order.

**D4 CAT Bulldozer**

No Activity

**2020 CAT Mini Excavator 303-5 Equipment activity**

*3 Hours used since May 11, 2024*

On 5/3/2024 Ron Akey and Chris MacDonald operated the excavator removing rock and road repair on Canebrake rd. Ron spent several hours with Chris training him on the operation of the equipment. Chris MacDonald and Steve Fillmore have become efficient operators and comfortable operating the equipment.

5/17/2024 Daryl Holmes and Ron Akey used the excavator to fill in vault on Smoketree lane construction site. We used our new sifting screen that was recently given to CCWD by Bill Dimmock. It worked great in removing all rock from the sand and enabled us to push fine sand into hole that was filled at the Smoketree construction site.

Wednesday, June 5, 2024

5/18/2024 Ron Akey and Daryl Holmes washed and wiped down excavator completely lubed and greased all fittings. The Excavator is in excellent working order.

**EQUIPMENT Operators**

6 Canebrake property owners have have offered to volunteer time to our community to operate CCWD equipment.

Bill Dimmock

Chris MacDonald (3 hours of recent training and operating on both tractors)

Steve Fillmore (2 hours of training on excavator)

Daryl Holmes

Ron Akey

Tom Stucke

**COMMUNITY BUILDING Condition and use**

Quonset garages are in need of electrical wiring, refurbishing and new LED lighting added to each garage.

40 amp circuit breaker switch for Peterson well needs to be replaced. (Jerry will address a possible plan to replace circuit box).

Respectfully submitted

Daryl Holmes Jr.
